

PDI Klamath Falls Location

Come spend an energetic week of learning and professional fellowship in beautiful Southern Oregon. Klamath Union High School is opening its Computer lab to you and PDI for the benefit of educational advancement. Boy, what a line up we have for you!

Every week long seminar we start with a comprehensive overview of the week. We call it "Nuts and Bolts," and our goal is to inform every attendee of what to expect and what is expected of them. We cover the FAQ's and go through the contents of your seminar bag (That's right, FREE STUFF!) We want your experience to be stress free and useful!

DyAnne Nielsen-Fry is your Institute Director this week. DyAnne is the Learning Director at Tracy Learning Center in Tracy, California. She will share her history of creating a charter school and her daily schedule. Her enthusiasm is contagious! She is friendly, energetic, and extremely knowledgeable in the area of FREE, SAFE, AND COMMERCIAL FREE web links to enhance any classroom. This "hands on" session will enable you to navigate the [CLRN](#) website, explore resource offerings, and browse the free Web information Links database.

The logical progression is to allow participants some time to explore and process the new information. Tues will be devoted to just that. [CLRN](#) and other free recourses will be made available. Also, BLOGS, WIKIS, PODCASTS, AND TEACHER CREATED WEBPAGES will be explored. Brief tutorials will be issued on each topic and participants will have computer lab time to explore them.

Wednesday and Thursday are devoted to working toward finishing the projects shaped by your own individual objectives.

On the final day of the seminar, we have various vendors coming in to allow you some time to experience the finest in educational technology. Promethean Activboards are the premier interactive white boards on the market. These and all the activclassroom accessories will be available for you to work with. This presentation is fast paced and highly informative.

PDI will wrap things up at the end to be sure that all your questions are answered, and we will provide information on other professional growth experiences.
